Request for Release of Chapters I to Office of Education/HEW

Conversations this morning with Ken Doyle and Ronald Kain revealed that Dr. Frederika Tandler, Director of the Division of International Education Studies, who has close working relationship with Mr. Kain, is interested in release of Chapters I to her office.

Dr. Tandler's activity is a part of the Bureau of International Education, headed by Dr. Oliver Caldwell, Acting Associate Commissioner of Education.

Dr. Tandler's office now receives classified State Foreign Service dispatches and has been getting access to Section 43 (not through Kain). Initially Dr. Tandler wishes to look at a Chapter I, preferably on Venezuela (subject of her current study) to see if this Chapter would be useful to her work. Presumably as the Chapters I were released to her, these would be on countries she would designate.

At this point I will turn this matter over to you.
